DEPARTMENT OF CIVIL ENGINEERING

Creating Tomorrow

Department of Civil Engineering | Mangalam College of Engineering

Even Semester 2025-2026

Where Learning Meets Creation

Department of Civil Engineering

Our dedicated faculty members serve not only as educators but also as mentors, researchers, and facilitators who work closely with students to nurture their technical knowledge, creativity, and professional values.

The department adopts student centric teaching practices, emphasizing experiential learning through projects, field visits, internships, workshops, industry interactions, and research activities.

Equal importance is given to co-curricular and extracurricular development. Students actively participate in technical competitions, innovation challenges, professional society activities, conferences, community engagement initiatives, sports, arts, and leadership programmes.

Principal's Message

From the Principal's Desk

Dr. Vinodh P. Vijayan

Principal, Mangalam College of Engineering

An accomplished academician, researcher, and administrator, Dr. Vinodh P. Vijayan has been serving as the Principal of Mangalam College of Engineering since 2021. With extensive experience in teaching, research, and higher education leadership, he has made significant contributions to Artificial Intelligence, Soft Computing, IoT, and Outcome Based Education. A prolific researcher with numerous publications and patents, he is dedicated to fostering innovation, academic excellence, and holistic student development, guiding the institution towards creating competent professionals and responsible citizens.

Creating Futures Through Excellence

It gives me immense pleasure to present SRISHTI, the newsletter of the Department of Civil Engineering, Mangalam College of Engineering. The title Srishti, meaning "Creation," beautifully reflects the essence of Civil Engineering a discipline that transforms ideas into structures and visions into realities.

At Mangalam College of Engineering, we are committed to providing an outcome-based, student centric learning environment that nurtures technical competence, innovation, leadership, and social responsibility.

The Department of Civil Engineering has consistently demonstrated excellence in academics, research, industry interaction, and holistic student development through a wide range of curricular, co-curricular, and extracurricular activities.

This newsletter is a testament to the dedication and achievements of our students and faculty. It showcases their creativity, hard work, and continuous pursuit of knowledge and excellence. I congratulate the Department of Civil Engineering for this initiative and encourage all students to continue learning, innovating, and contributing towards building a sustainable and resilient future

I extend my best wishes to the editorial team and all contributors of SRISHTI. May this platform inspire every reader to create, collaborate, and strive for excellence in every endeavour

Head of Department's Message

From the HOD's Desk

Dr. D. Ramesh Kumar
Professor & Head
Department of Civil Engineering

Dr. D. Ramesh Kumar, Professor and Head of the Department of Civil Engineering, Mangalam College of Engineering, holds an M.Tech. and Ph.D. in Structural Engineering and has over 16 years of teaching experience.

His research interests include high-performance concrete, fiber-reinforced concrete, and sustainable construction materials. He has authored several publications in SCI, SCIE, and Scopus-indexed journals and has actively contributed to funded research projects.

he road to success is always under construction

.This timeless quote perfectly reflects the spirit of Civil Engineering and the journey of continuous learning and innovation. From the pyramids of Egypt to modern smart cities and sustainable infrastructure, civil engineers have consistently shaped civilization and improved the quality of life

It gives me immense pleasure to present SRISHTI, the newsletter of the Department of Civil Engineering, Mangalam College of Engineering. Meaning Creation, SRISHTI embodies the essence of our discipline transforming ideas into structures and aspirations into achievements.

This newsletter showcases the academic accomplishments, research initiatives, technical activities, and creative pursuits of our students and faculty

At the Department of Civil Engineering, we are committed to fostering a student centric and outcome based learning environment that encourages participation, innovation, leadership, and holistic development. I am confident that SRISHTI will serve as a platform to inspire learning, strengthen collaboration, and celebrate the vibrant achievements of our department.

I congratulate the editorial team and all contributors of SRISHTI and extend my best wishes for its continued success.

KERALA
KNOWLEDGE
ECONOMY MISSION

Civil Engineering students enthusiastically enrolled in various **Coursera certification programs** through the **Kerala Knowledge Economy Mission (KKEM) DWMS Portal**. While some learners have already completed their certifications and others are still progressing, the participation itself reflects a strong commitment to continuous learning, industry-oriented skill development, and career readiness. The growing interest in areas such as Sustainability, Generative AI, BIM, and Construction Management is a positive indicator of students embracing future-focused competencies beyond the regular curriculum

KEY INSIGHT

Students are actively exploring diverse career paths across engineering, design, marketing, entrepreneurship and technology – a positive sign of career readiness and future orientation.

Workshop & Seminar

Lean Construction & Last Planner System

Industry-oriented lecture on Lean Construction principles and the Last Planner System for improving project productivity, workflow reliability, and waste reduction.

Resource Person
Er. Enosh William
Assistant Project Engineer, KPHCC, Alappuzha

Environmental Management Plan Framework & Importance of Environmental Monitoring

Session covering environmental management planning, regulatory compliance, environmental monitoring techniques, and sustainable project implementation.

Resource Person
Dr. S. Manikandan., M.E., Ph.D
Assistant Professor & Head, Department of Civil Engineering,
Sri Muthukumaran Institute of Technology, Chennai

Groundwater Vulnerability Assessment

Expert lecture on groundwater quality assessment, contamination risk evaluation, aquifer protection, and sustainable groundwater resource management.

Resource Person
Dr. Simi M R
Assistant Professor & HOD , Mahaguru Institute of Technology

Biodrying Process of Municipal Solid Waste

Technical session on biodrying technology for municipal solid waste management, resource recovery, waste volume reduction, and sustainable waste treatment practices.

Resource Person
Dr. Asha P Tom
Associate Professor , Carmel College of Engineering & Technology
Aravukadu, Punnapra, Alappuzha

Workshop & Seminar

SEM Analysis of Special Structure

Expert session on the application of Finite Element Method (FEM) and Structural Engineering Modeling (SEM) techniques for analyzing complex and special structures.

Resource Person

Dr. Kannan C Bhanu

Associate Professor , Carmel College of Engineering & Technology
Aravukadu, Punnapra, Alappuzha

Optimization in Concrete Design

An online session on optimization techniques in concrete design. The resource person is Dr. Gautham Kisore Reddy. The program focuses on advancing knowledge in civil engineering, research, innovation, and sustainable development.

Resource Person

Dr. Gautham Kisore Reddy

Head of the Civil Engineering Department at Sree Dattha Institute of Engineering and Science,

The department demonstrates a strong culture of continuous learning through NPTEL/SWAYAM initiatives. Student participation is particularly high in sustainability, environmental engineering, and professional development courses. Faculty engagement is commendable, resulting in high assignment completion and certification rates. Future efforts may focus on increasing participation and success in advanced technology and longer duration courses while maintaining the strong performance seen in environmental and sustainability domains.

Congratulations

For successfully completing the NPTEL course on
"Electronic Waste Management"

Congratulations

For successfully completing the NPTEL course on
"Sustainable Engineering Concepts and Life Cycle Analysis"

Congratulations

For successfully completing the NPTEL course on
"Introduction to Lean construction"

Bharath Nirmal Challenge 2025 - South Zone Title Winner

NICMAR's Bharat Nav-Nirmaan Challenge: Kochi City Finale Concludes, Students Present Innovative Solutions for the Built Environment

Mar 9, 2026

Facebook Twitter Google+ LinkedIn YouTube Instagram

The Kochi City Finale of the **Bharat Nav-Nirmaan Challenge**, NICMAR's flagship nationwide student innovation initiative, concluded successfully in Kochi, bringing together undergraduate engineering and architecture students to present practical and forward-thinking solutions addressing real-world infrastructure challenges.

The city-round finale witnessed participation from **more than 25 teams** representing leading institutions from across the region. Student teams showcased projects aimed at addressing key challenges in India's built environment and broader infrastructure ecosystem. The competition forms part of a structured, multi-stage national platform designed to encourage young technical talent to engage with India's fast-evolving Construction, Real Estate, Infrastructure and Project (CRIP) sectors.

Projects were evaluated by an esteemed industry jury comprising **Prof. Vishnu Nambodiri**, Head (HSEM), NICMAR University of Construction Studies Hyderabad; **Mr. Ajith A.**, General Manager (Procurement and Corporate Planning), Kochi Metro Rail Limited (A Joint Venture company of Government of India & Government of Kerala), Ernakulam; and **Mr. Anson T.**, Director, Mercadia Projects, Adam Square, Ankamaly. The jury assessed entries on parameters including innovation, feasibility, scalability, and relevance to contemporary infrastructure needs, highlighting the strong blend of technical insight and practical application demonstrated by the participants.

Kochi Finale of Bharat Nav-Nirmaan Challenge Showcases Student Infrastructure Ideas

MediaCatalyst • March 9, 2026

The Kochi city finale of the Bharat Nav-Nirmaan Challenge, a nationwide student innovation initiative by NICMAR, concluded in Kochi with undergraduate engineering and architecture students presenting solutions aimed at addressing infrastructure and built environment challenges.

More than 25 teams from institutions across the region participated in the city-level round. The projects focused on practical approaches to issues in construction, real estate, infrastructure and project (CRIP) sectors, as part of a multi-stage national platform designed to encourage student-led innovation in the field.

Entries were evaluated by an industry jury comprising **Prof. Vishnu Nambodiri**, Head (HSEM) at NICMAR University of Construction Studies, Hyderabad; **Ajith A.**, General Manager (Procurement and Corporate Planning) at Kochi Metro Rail Limited; and **Anson T.**, Director at Mercadia Projects. The jury assessed projects based on innovation, feasibility, scalability and relevance to current infrastructure needs.

Mangalam College of Engineering, Ettumanoor, secured the first position in the Kochi round, Carmel College of Engineering & Technology, Alappuzha, finished second, while Eranad Knowledge Technical Campus, Malappuram, placed third.

NICMAR's Bharat Nav-Nirmaan Challenge: Kochi City Finale Concludes, Students Present Innovative Solutions for the Built Environment

Kochi, Mar 09: The Kochi City Finale of the **Bharat Nav-Nirmaan Challenge**, NICMAR's flagship nationwide student innovation initiative, concluded successfully in Kochi, bringing together undergraduate engineering and architecture students to present practical and forward-thinking solutions addressing real-world infrastructure challenges.

The city-round finale witnessed participation from **more than 25 teams** representing leading institutions from across the region. Student teams showcased projects aimed at addressing key challenges in India's built environment and broader infrastructure ecosystem. The competition forms part of a structured, multi-stage national platform designed to encourage young technical talent to engage with India's fast-evolving Construction, Real Estate, Infrastructure and Project (CRIP) sectors.

Projects were evaluated by an esteemed industry jury comprising **Prof. Vishnu Nambodiri**, Head (HSEM), NICMAR University of Construction Studies Hyderabad; **Mr. Ajith A.**, General Manager (Procurement and Corporate Planning), Kochi Metro Rail Limited (A Joint Venture company of Government of India & Government of Kerala), Ernakulam; and **Mr. Anson T.**, Director, Mercadia Projects, Adam Square, Ankamaly. The jury assessed entries on parameters including innovation, feasibility, scalability, and relevance to contemporary infrastructure needs, highlighting the strong blend of technical insight and practical application demonstrated by the participants.

Congratulating the winners of the Kochi City Round and emphasizing the importance of such initiatives, **Dr Tapash Kumar Ganguli**, Director-General, NICMAR, said,

"Participating students in this round demonstrated remarkable creativity and technical depth in tackling real-world infrastructure challenges. The solutions presented at the Kochi City Finale reflect the strong potential of young engineering minds to contribute meaningfully to India's built environment, which lies at the core of the Bharat Nav-Nirmaan Challenge."

The winners of the Kochi City Round are:

- 1st - Mangalam College of Engineering, Ettumanoor
- 2nd - Carmel College of Engineering & Technology, Alappuzha
- 3rd - Eranad Knowledge Technical Campus, Malappuram

Journey

*Department of Civil Engineering
receives recognition for its
commendable participation in
the Bharat Nav-Nirmaan
Challenge, showcasing
innovation, sustainability, and
engineering excellence.*

The Department of Civil Engineering proudly celebrates the remarkable achievement of its students in the **Bharat Nav Nirmaan Challenge, India's largest inter-college engineering competition organized by NICMAR in association with AICTE and supported by The Times of India as the media partner.** Competing against more than 200 teams from across the country, a team of final-year Civil Engineering students successfully progressed through the online submission and proposal stages to secure a place among the Top 30 teams at the City Level competition for Kerala and Tamil Nadu. Demonstrating exceptional innovation, technical excellence, and problem-solving capabilities, the team emerged as the City Level Title Winner, earning the opportunity to represent the institution at the Regional Level competition to be held at NICMAR Hyderabad/Delhi. The achievement reflects the department's commitment to nurturing creativity, industry-relevant skills, and engineering leadership among its students.

Journey

Valediction

With profound gratitude and deep admiration, the Department of Civil Engineering bids farewell to Ms. Reni Kuruvilla, whose presence has been far more than that of a faculty member. To generations of students and colleagues, she has been a mentor, guide, confidante, and, above all, a motherly figure whose warmth, compassion, and unwavering support enriched the academic community.

Some teachers impart knowledge, a few leave an indelible mark on hearts. Ms. Reni Kuruvilla has done both.

Throughout her tenure, Ms. Reni Kuruvilla has made invaluable contributions to the department through her dedicated teaching, sincere mentorship, and active involvement in institutional development. Her commitment to academic excellence, accreditation activities, quality assurance processes, and departmental initiatives has played a significant role in strengthening the department's growth and reputation.

As she embarks on a new chapter in her journey, the department expresses its heartfelt appreciation for her years of dedicated service, invaluable contributions, and the positive impact she has made on countless lives.

Her legacy of kindness, dedication, and excellence will continue to inspire the Department of Civil Engineering for generations to come
