

# REFLECTIONS

ECE DEPARTMENT

JUNE – DEC 2019  
VOLUME: 9, ISSUE: 1

## HOD'S Desk

Educational institutions are the training centers for Leadership. Creating a sense of responsibility and taking the initiative to lead is the way to become a good leader. Our actions are guided by our perceptions, which form the basis of our emotions, attitudes, judgments and choices. The Department of ECE has a unique blend of quality conscious staff members with a strong sense of ethical and professional responsibility. The department also has a very good advisory system, class committee and PTA which help in maintaining a good student -teacher-parent relationship. Well-qualified, experienced and dedicated faculty as well as state-of-the-art laboratories and infrastructure have been instrumental in growth of such magnitude. The department has persistently laid equal focus on academics and research and the efforts have borne fruit in terms of university ranks, patents, faculty and student publications to name a few.

# STAFF CORNER

1. Faculties Participated in Question Paper setting and Valuation are Ajith joseph , Reneesh Zacarias, Akhil Kumar, ANU PHILIP MATHEW, Aparna Jose, Aswathi Gopan, Jyothisree K R, KRISHNAPRIYA C V, Meeva P A, NEETHAN ELIZABETH ABRAHAM, Rakesh S, Resma Chandran V P, and Simi P Thomas.
2. Ajit Joseph, is posted as Chief Examiner for valuation of the course APPLIED ELECTROMAGNETIC THEORY(EC303)
3. Reneesh Zacharia is posted as Chief Examiner for valuation of the course SOLID STATE DEVICES(EC203)
4. Reneesh Zacharia, is posted as Chief Examiner for valuation of the course NANO ELECTRONICS(EC402)
5. Aswathi Gopan, is posted as Chief Examiner for valuation of the course MICROPROCESSORS & MICROCONTROLLERS(EC305)
6. DR.T D SUBASH, and MR.RAKESH S, ASST.PROFESSOR,ECE conducted workshop on Student Solar Ambassador.

# Workshop

## Student Solar Ambassador Workshop

Under the SoULS Initiative, one-day workshops have been organized for the school-going students, where they learn about clean energy (solar) technologies, get to test the technical components and assemble their own solar study lamps. By making their own solar lamp, the students' scientific curiosity & hands-on learning of technology is piqued, particularly in solar. This can lay the foundation to stimulate young minds towards clean technologies for the future, by making them Student Solar Ambassadors. It will help the students get a first-hand experience of the solar technology.
