VOLUME: 11, ISSUE: 1

HOD'S Desk

Educational institutions are the training centers for Leadership. Creating a sense of responsibility and taking the initiative to lead is the way to become a good leader. Our actions are guided by our perceptions, which form the basis of our emotions, attitudes, judgments and choices. The Department of ECE has a unique blend of quality conscious staff members with a strong sense of ethical and professional responsibility. The department also has a very good advisory system, class committee and PTA which help in maintaining a good student - teacher-parent relationship. Well-qualified, experienced and dedicated faculty as well as state-of-the-art laboratories and infrastructure have been instrumental in growth of such magnitude. The department has persistently laid equal focus on academics and research and the efforts have borne fruit in terms of university ranks, patents, faculty and student publications to name a few.
